EMARK STYLE is a company founded by a group of qualified professionals, with more than 15 years of experience, specializing in the commercialization of construction materials for residential, commercial and industrial projects.

Additionally, we are a company that strives to provide our clients with differentiating factors such as style, innovation and superior quality. In this manner we can achieve a prime position in the market that allows us to contribute to the architectural ecosystem all the latest trends and cumulative knowledge of the Industry.

We count with the representation of leading Brands in the Porcelain, Bathroom, Kitchen, Faucet and wood flooring industry; which provide us with a wide array of choices of up to 10,000 models which allows us to find the perfect identity for each space.

EMARK STYLE "A space for each life"

SERVICES

- ARCHITECTURAL DESIGN
- MANAGEMENT AND EXECUTION OF THE PROJECT
- DESIGN AND STRUCTURAL CALCULATION
- CONDITIONING OF AREAS
- FOUNDATION DESIGN AND DEVELOPMENT

In EMARK STYLE we believe that constant innovation, not only transforms spaces, but also lives. This is why we work tirelessly in combining the latest design trends and technology in our products. In this way striving to go beyond the established norms in order to provide our clients with an environment in which ideas and possibilities are limitless.

In this manner we look to grow with our clients, which is something that gives us immense pride.

OUR BRANDS

Berek

Berek Since 1890, BEREK has been a leading company in the United Kingdom market. Creating modern and functional designs in the Sanitaryware market. Winner of the Lloyd's England award, through the years the company has compiled an ample portfolio which is integrated into its philosophy which is to create feelings with its products.

Trento

TRENTO is of Austrian origins, this specialized brand in floorings of all types: Porcelain, Ceramic, Wooden laminate, possesses one of the largest production lines in the world, this way it allows us to commercialize all types of flooring options that perfects the design plans and optimize the profitability of the projects. Each of its collections has its unique seal of inspiration and evolution, incorporating into its production relevant cultural aspects that improve its color pallet and texture.

Kropel

KROPEL has its origins in Germany, leader in solutions for the conduction of water with its portfolio of Faucets and Accessories. All its series integrate functionality, design, quality and excellent price, adding to it the undeniable fingerprint of German production.

FLOORING

FEATURES:

The following conventions correspond to characteristics and/or properties of some of our products.

RECTIFIED

Finishes in which the edges have a straight cut on the edge, which allows for less expansion and/or dilation between the tiles.

POLISHED/SOLUBLE SALTS

Combination of natural mineral materials, resistant to abrasion, absorption and resistance. Ideal for its shiny polish.

SEMIPOLISHED

The glossing technique on the tiles in which a semi-polished finished is applied giving it a semi-glossy finish.

MATT

Tile finishing with any type of polishing, generating a high level of protection, easy to maintain and with a desired finished and natural aspect.

ASSEMBLY

Assembly pieces are characterized by jagged edges that pair together when installed.

STAIN RESISTANCE

The product contains a special layer that covers the surface of the porcelain tiled, which prevents liquid absorption.

ANTI-SLIP

A protective layer for Porcelain and Ceramic flooring which provides greater safety.

CHROMATIC

Existing degree of variation of the pieces such as color and surface, since they are materials with different material composition.

HIGH TRAFFIC

The amount of traffic in a space which is resistant to abrasion and moisture; recommended for commercial and outdoors with high people traffic and high absorption rates.

APPLICATIONS

WALL:

Tiles in Porcelain, ceramic and wood designed for wall application and installation.

FLOOR

Porcelain, Ceramic and Wooden tiles designed exclusively for covering of flooring zones.

RB

RB (low resistance)

RM

RM (medium resistance)

RA

RA (high resistance)

ACB

ACB (commercial basic)

ACM

ACM (commercial medium)

ACA

ACA (commercial high)

Width of tiles

These are products designed with high engineering standards that comply with all the quality standard and norms such as CE European Conformity Certification.

Flooring tiles are elements that serve the purpose of generating modern and stylish living spaces that soothe the senses and generate quality of life for those who inhabit them.

KITCHENS

KITCHENS

The notion of kitchens also allows us to refer to gastronomic art, which allows us to create designs that evoke all world cultures, matching each one of the needs and demands of our clients.

All the components of our kitchens are designed with international standards, for this reason operation and precision are the key to completing a masterpiece.

KITCHENS

The idea of giving prominence to the kitchen is key for a project to stand out, the works reveal the architectural form, expressing the power of traditional, modern functional, postmodern and nostalgic buildings. The concept that develops the kitchen space is vital in any design. Ordered from modernism and postmodernism, the desire of architecture to generate new ideas followed by a complete decoration concept.

KITCHENS

Rare and iconic are the designs that today's architects and designers achieve. This work is the unique experimental combination that generate relevant trends.

A modern kitchen scene featuring a dark, speckled countertop. In the foreground, a white coffee cup sits on a saucer next to a folded white towel with a dark grid pattern. A clear wine glass stands nearby. In the background, a stainless steel double-basin sink is equipped with a modern, high-arc faucet. The kitchen cabinets are dark, and a red overlay covers the upper left portion of the image.

COUNTERTOPS

COUNTERTOPS

Countertops are a combination that incorporates a strong accuracy in its cuts, it is the perfect complement that most marks the style of a kitchen.

A modern kitchen faucet with a sleek, metallic finish is shown in a close-up, low-angle shot. Water is flowing from the spout, creating a soft, white stream. The faucet is mounted on a dark, reflective surface, likely a kitchen sink. In the background, a glass of water and some kitchen items are visible but out of focus. A large, bold red diagonal graphic cuts across the upper half of the image, adding a dynamic and contemporary feel to the composition.

KITCHEN FAUCETS

KITCHEN FAUCETS

Kitchen faucets aesthetics is a differentiating factor; added to an environment that takes every detail and generates a unique character.

Integrating design, savings and quality that allows us to enjoy an experience that awakens our senses.

ELECTRIC LINE

ELECTRIC LINE

We call design the conception of objects loaded with all kinds of content such as valves, electrical mechanisms, design and engineering.

The experience of preparing food is enhanced when you join the desire with engineering, thus generating an optimal result that fills your spirit.

RANGE HOODS

RANGE HOODS

Industrial production generates a high differentiation of components, which come together to make life easier. The Range hoods are an important complement to the kitchen, for this reason, they must be treated as an art form in itself.

RANGE HOODS

ESCEC-0001

CARPENTRY

CARPENTRY

Although it is true that we find many carpentry options, with styles according to their culture, we have managed to generate designs that help highlight world architecture. We seek to share information that helps every project to find its identity which will be marked by wood, therefore we are constantly studying and improving quality so that wood generates warm environments.
